Had a pretty hectic day!

Recently joined the KAINOS 2024: Online National Hackathon and just submitted my final project! 🎉

([unstop.com/hackathons/kai...](https://unstop.com/hackathons/kainos-2024))

Check out the source code here:[github.com/chirag-patil62...](https://github.com/chirag-patil62)

The screenshot shows the event page for KAINOS 2024: Online National Hackathon. The header features logos for the event, D.Y. Patil University, and RAIT ACM SIGAI. The main title "KAINOS" is prominently displayed. Below it, the event details are listed: "72 Hour Hackathon from 26TH - 28TH SEPTEMBER" and "NATIONAL LEVEL HACKATHON collaboration with ZERO TRUE RAIT ACM SIGAI Student Chapter". The event is categorized as "Free" and has a "View Details" button. The page also shows the number of registered participants (1,375) and the team size (1 - 3 Members). The event is hosted by D.Y. Patil Ramrao Adik Institute of Technology (RAIT), Navi Mumbai, and has a prize pool worth ₹1,00,000.

I just accidentally deleted my post 😬

(Lucky I got a screenshot of it)

If anyone needs the source code, just ask, and I'll share!

Replying to @wisdomInBytes

Guess what? Made some shit, and when it was time to upload... ran out of time.

(Actually, the deadline got extended to 16 Sept 12am, but I thought it was pm).

Maybe next time I'll win... or at least submit on time!
