Excited to share that I got selected for CODEVERSE 2.0 Hackathon!
Today was the aptitude test, and it went pretty well!
(Team Name: The Data Pairs)

Had a pretty hectic day!
Recently joined the KAINOS 2024: Online National Hackathon and just
submitted my final project! 🎉
(unstop.com/hackathons/kai...)

Check out the source code here: github.com/chirag-patil62...

I just accidentally deleted my post 🥲
(Lucky I got a screenshot of it)
If anyone needs the source code, just ask, and I'll share!
